## **Learn how to edit ERD shapes**

## To manually customize this ERD:

- 1. Double-click on any text in an entity shape and **add/edit text** by typing.
- 2. Click on an entity shape and toggle the amount of fields using the advanced shape bar at the top of the canvas.
- **3.** Add and remove lines to show relationships between entities.
- 4. To **update cardinality**, click on a line and then click "Endpoint" on the properties bar at the top of the canvas.

## To automatically create your own ERD:

1. Click "→ Import Data" in the Entity Relationship shape library to the left of the canvas.
